

## International Pine to Prairie Birding Trail

Ever wonder what those little birding signs are all about? The International Pine to Prairie Birding Trail was developed by the Province, Travel Manitoba and our Minnesota friends to the south. [Read more...](#) Eastman Tourism is helping to develop marketing material for the Pine to Prairie Birding Trail in Eastern Manitoba which will be marketed by Travel Manitoba and Minnesota Tourism. This means our marketing will reach the US market and we will be promoting the Minnesota portion here in Manitoba. We are reaching out to inform you about the project and give you the opportunity to participate.

[The trail](#) has been mapped out but along the way are other things to do, places to stay, shop and eat. We would like to give you the opportunity to share what it is you offer on your section of the trail. We are looking for amenities like:

Accommodations  
Restaurants  
Gas stations  
Gift Shops  
Information Centres

We are also looking for birding experts in your communities that can contribute information to the marketing of the trail. This includes Natural Resource Officers, avid bird watchers, nature enthusiasts, and photographers in your community. Areas that we are covering are Buffalo Point First Nation, Moose Lake and Birch Point Provincial Parks, Whiteshell Provincial Park, Whitemouth Falls Provincial Park, Pinawa Dam Provincial Park, Pinawa, Winnipeg River to Traverse Bay, Grand Beach Provincial Park, Birds Hill Provincial Park, Tall Grass Prairie Preserve, Rat River Wildlife Management Area, St. Malo Wildlife Management Area, and St. Malo Provincial Park. If you know of an individual or a business that fits this description in these areas please forward this information to them. We would like to include as much information as possible about the trail in Eastern Manitoba.

You may forward this to those who fit the “bill” (pun intended). If you have further questions feel free to reach out. Thank you in advance for your cooperation and collaboration on this project.

Regards,

*Jenny L. Dupas*
